

Companion and Support Services for Seniors

Ready Hands is a new business offering companionship and assistance to seniors facing challenges to their independence. Owned and managed by Dr. Granger Benson, a board-certified internal medicine physician, Ready Hands is uniquely positioned to understand the needs of clients and assure the safety and appropriateness of its services. Dr. Benson performs a free initial consultation on each prospective client to assess his/her particular circumstances, then maintains active contact with the client and family to be sure service goals are being attained.

Our employees, called Home Companions, are selected for the character and personality traits required to give reliable, compassionate and friendly care. All are bonded, insured and carefully screened. Most work just for Ready Hands and reflect our mission of improving the quality of life of the clients we serve.

Ready Hands coordinates its services with other professionals or agencies as needed. We currently operate in Fairfax County, Arlington and Alexandria. Dr. Benson is available for presentations at your organization on health topics of interest to seniors and/or their caregivers.

Further information can be obtained by phone at (703) 750-3170, e-mail at info@readyhands.com or via the web at www.readyhands.com
